

Season 3 - Episode 18

DWW
SHOW

Best Quotes

of this week's Episode

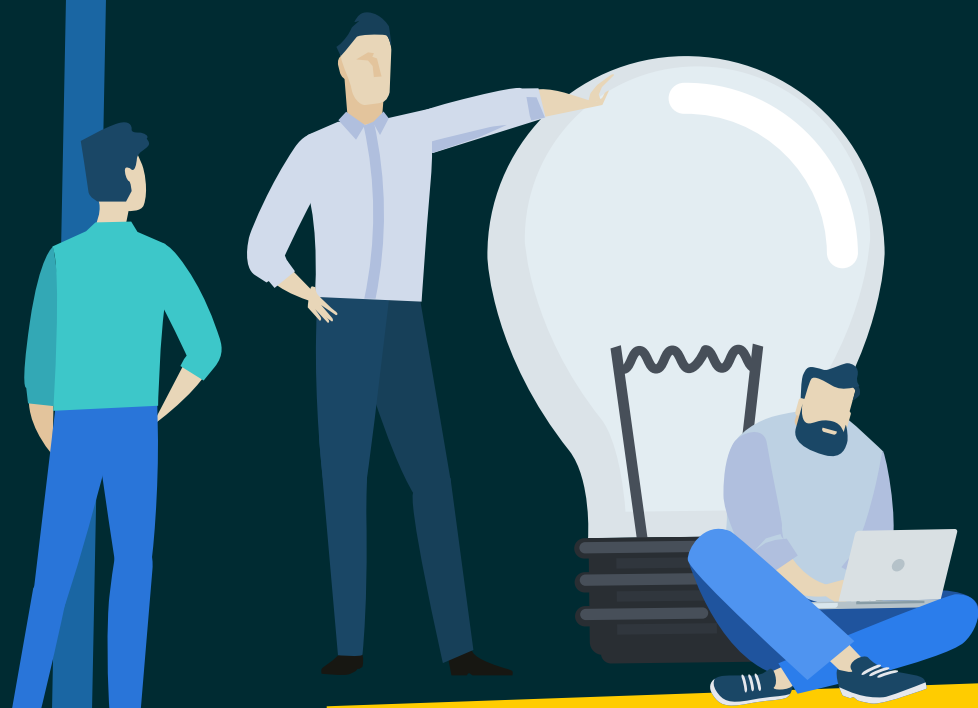

Civil Engineering
has been about the
big projects, the
construction, the
hard stuff. **We need
to transition to softer
approaches!**

James Murray

MGSDP Manager at the
Glasgow City Council

(DON'T!)
**WASTE
WATER**

Full story on dww.show

Sustainable Drainage Systems is about **managing water closer to where it lands**, trying to reuse surface water if we can, slowing it down and controlling before it enters the formal drainage network.

(DON'T!)

**WASTE
WATER**

James Murray

MGSDP Manager at the
Glasgow City Council

Full story on dww.show

We're building more and more urban areas which create **more and more impermeable surfaces** that shed water more quickly.

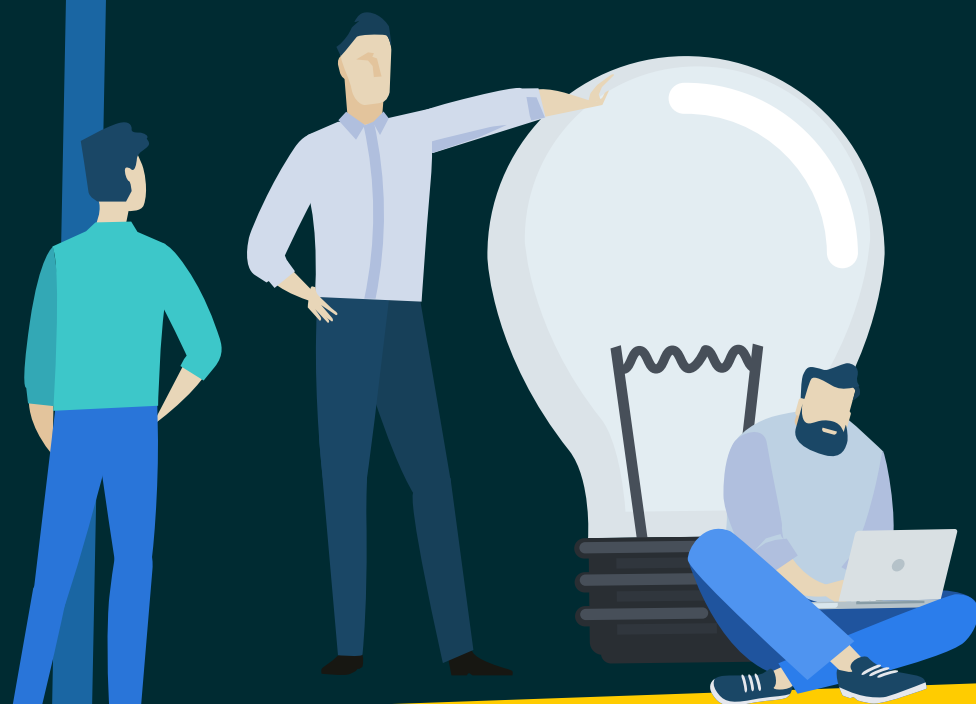

(DON'T!)

**WASTE
WATER**

James Murray

MGSDP Manager at the
Glasgow City Council

Full story on dww.show

We reduce the risk flooding, we help manage flooding and reduce its impact. **But it is very dangerous to say that we will stop flooding!**

James Murray

MGSDP Manager at the
Glasgow City Council

(DON'T!)
**WASTE
WATER**

Full story on dww.show

With Climate
Change, **we will see
more flooding.**

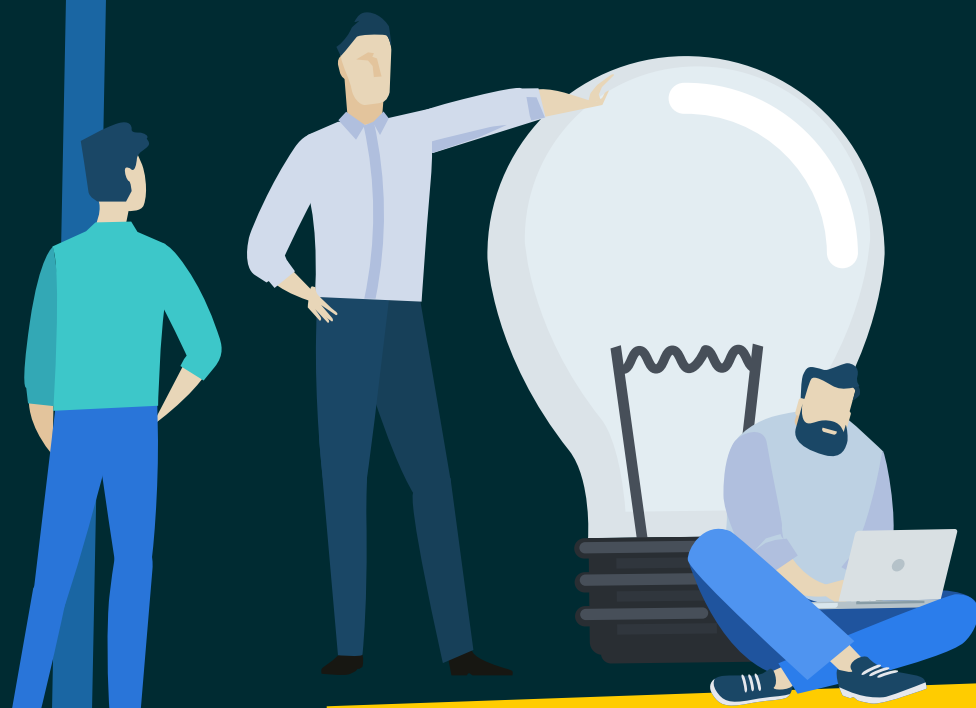

(DON'T!)

**WASTE
WATER**

James Murray

MGSDP Manager at the
Glasgow City Council

Full story on dww.show

By dropping the canal level by a hundred milimeters, **we gain a substantial volume** that allows to regenerate significant areas of north Glasgow!

James Murray

MGSDP Manager at the
Glasgow City Council

(DON'T!)
**WASTE
WATER**

Full story on dww.show

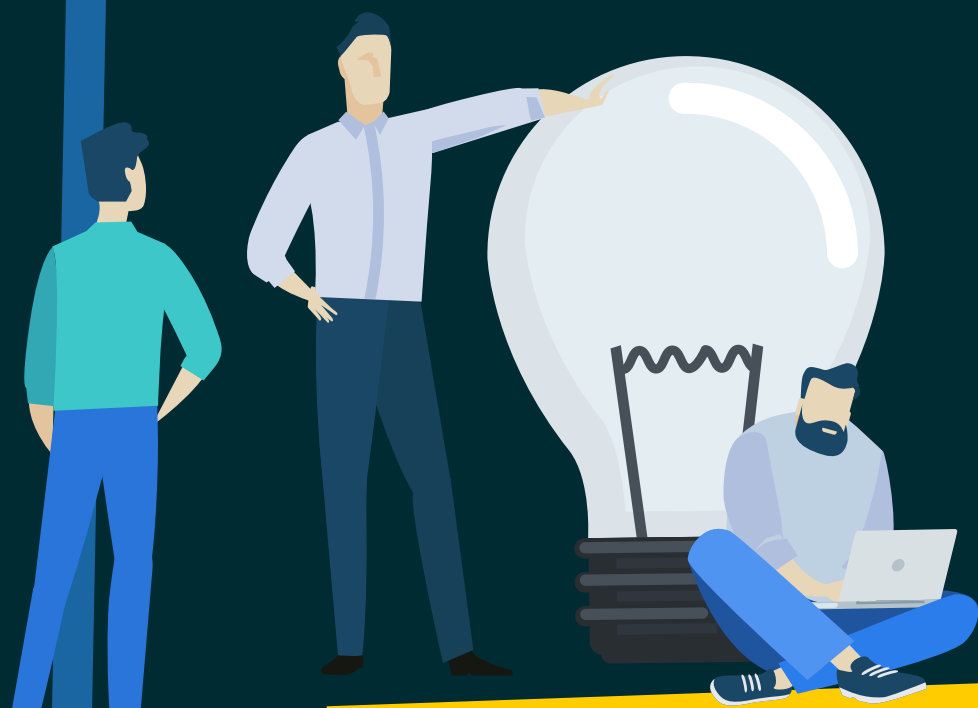

By **keeping water on the surface we give it a chance** to be used by vegetation or be evaporated by the sun - even in Scotland!

(DON'T!)
**WASTE
WATER**

James Murray

MGSDP Manager at the
Glasgow City Council

Full story on dww.show

It's about explaining the overall benefits that are coming and get people to see that it's not just a benefit for their community **but for the wider community!**

James Murray

MGSDP Manager at the
Glasgow City Council

(DON'T!)

**WASTE
WATER**
